9b. Are there any other Macquarie University staff and/or research students substantially involved that are not listed above?

10a. Name of non-academic end-user organisation(s) and a contact from each organisation involved in this external research-based engagement/knowledge transfer (for the purposes of verification).

Organisation 1

End User Organisation

Name of contact at end-user organisation

Contact details (phone or email, if known)

Organisation 2

End User Organisation

Name of contact at end-user organisation

Contact details (phone or email, if known)

Organisation 3

End User Organisation

Name of contact at end-user organisation

Contact details (phone or email, if known)

Organisation 4

End User Organisation

Name of contact at end-user organisation

Contact details (phone or email, if known)

Organisation 5

End User Organisation

Name of contact at end-user organisation

Contact details (phone or email, if known)

10b. Are there any other non-academic end-user organisations involved that are not listed above?

11. Is any of your work regarding this external research-based engagement/knowledge transfer subject to a non-disclosure agreement or contract with confidentiality clauses or related restrictions?

12. Brief description of the nature of external research-based engagement/knowledge transfer and its outcomes, including evidence/examples (subject to confidentiality, if applicable) to support your choice of self evaluation rating below (max. 2000 characters, including spaces)

13. Self evaluation of level of external research-based engagement/knowledge transfer (select category that applies best)

- D. The research findings have been communicated in a targeted way to end-users for whom the findings may have social, economic, environmental, and/or cultural benefits relevant to them. To date, end-users have not made any identifiable changes because of these research findings.
- C. End-users have made an identifiable change because of these research findings (eg leading to a new policy/new product/new process/new behaviour).
- B. End-users have made an identifiable change because of these research findings AND the end-user community has obtained some identifiable benefit(s) from this change.
- A. End-users have made an identifiable change because of these research findings AND the end-user community has obtained extensive identifiable benefit(s) from this change.

14. How was the research that led to this external research-based engagement/knowledge transfer funded/supported? (select all that apply)

- ARC
- NHMRC
- Other ACG
- Research Contract - Commonwealth
- Research Contract - Other Public Sector
- Research Contract - Private Sector
- MQ University Scheme - Designated Central Research Funding
- MQ University - Divisional Funding
- International Funding Source
- Private Foundation or Philanthropic Funding
- No Direct Funding

Other (please specify)

After you have completed this form, please click on the Submit button below.

Once this form is submitted you will also be asked to fill in another form if you have more external non-academic research-based engagements/knowledge transfers.
